Our project: Reweaving the Basket: Reconnecting Local Community Circles for Co-Leadership

Hi, I'm Lisa at Lisa Hoag Designs. I have taught arts-based innovation workshops in local communities since 2012. My u.lab 2x team mates are Nani Lata from Spain, and David Talmor from Israel.

Our project: Reweaving the Basket: Reconnecting Local Community Circles for Co-Leadership

Our prototype: we will create a training for local community members to create a co-leadership circle.

Through a facilitated learning circle (based on Katrin Muff's Collaboratory), stakeholders can envision and manifest a new community future.

Though we each live in different places in the world, the challenges are the same. Jobs have left, Communities have unraveled. Our purpose is to reconnect the circles, and inspire leadership which originates from mindful whole community co-stewardship.
